KI Industries Inc. Hosts Grand Opening of New Production Facility

KI Industries, Inc. headquartered in Berkeley, IL. USA hosted a gala Grand Opening event to celebrate the opening of their second manufacturing facility in Querétaro, México. Over 150 Customers and suppliers attended the event. Mr. Marcelo Lopez, Secretary of Economy and Sustainable Development for the state of Querétaro, Rogelio Israel Carboney Morales, Querétaro's Secretary of Labor and Jose Belen Robles Campos, Secretary for Economic Development of El Marqués were present for the ribbon cutting.

The new 40,000 Sq.ft. facility, located in the El Marqués Industrial Park will initially house eleven injection molding machines ranging in size from 210 tons to 450 tons. The 350T and 450T machines will have gas-assist molding capability to produce Oven Door and Refrigerator Door handles. The plant will also have a chain-on-edge paint system with two paint cabins each equipped with a 6-axis robot capable of painting parts up to 800 x 600 mm in size.

This new facility will enable KI to increase their product offerings to include larger size decorative trim for Appliances as well as Automotive interior trim.

The plant is expected to begin production by March 2014 and will have space available to add as many as 16 additional large molding machines and a second paint line.
